Hunt, K. J. (Kenneth J.), 1963- Institution of Electrical Engineers. Polynomial Methods In Optimal Control And Filtering I E E Control . It is fair to say that the use of polynomial techniques in the control and filtering arenw first . of the H\*-optimal control problem for the standard control structure. Polynomial Methods in Optimal Control and Filtering (I E E . This book aims to demonstrate the power and breadth of polynomial methods in the control of engineering systems and the filtering of signals. A novel suboptimal method for solving polynomial filtering problems Abstract: The solution of linear quadratic predictive optimal control problems for systems represented in state-equation form, but using a polynomial systems approach, is considered Kalman, R.E., 1961, New methods in Wiener . Optimal control of heart rate during treadmill exercise Discussing the maximum principle[67] or the dynamic programming method [14] . Virtually all studies of the optimal control in time-delay systems are related to Discrete-time ?? control for nonlinear polynomial systems . Hunt K.
